Main features

Frame made of Bayblend PC+ABS V0 self-extinguishing material.

Description

Hide is the only retractable electrical socket on the market compatible with 3-module boxes for masonry walls (see compatibility table) that protrudes only 11 mm from the wall.

It consists of three elements: a frame with inserts for electrical components containing the connected plugs; a plug that closes the inspection compartment; a sliding/pivoting cover.

Compatible with the following residential and commercial wiring accessory systems:

Vimar® Plana™ - Gewiss® Chorus™
